

Dear Doctor,

Thank you for your interest in joining us at Joseph Banks Medical Centre.

Joseph Banks Medical Centre (JBMC) was established in 1979 at the dawn of the development of the suburb of Endeavour Hills. As the longest running and largest practice in the area, JBMC has been the local “go to” medical centre for 40 years and generations of families. We are a traditional General Practice with doctors who have special skills in minor procedures, musculoskeletal health, addiction medicine and obstetric care.

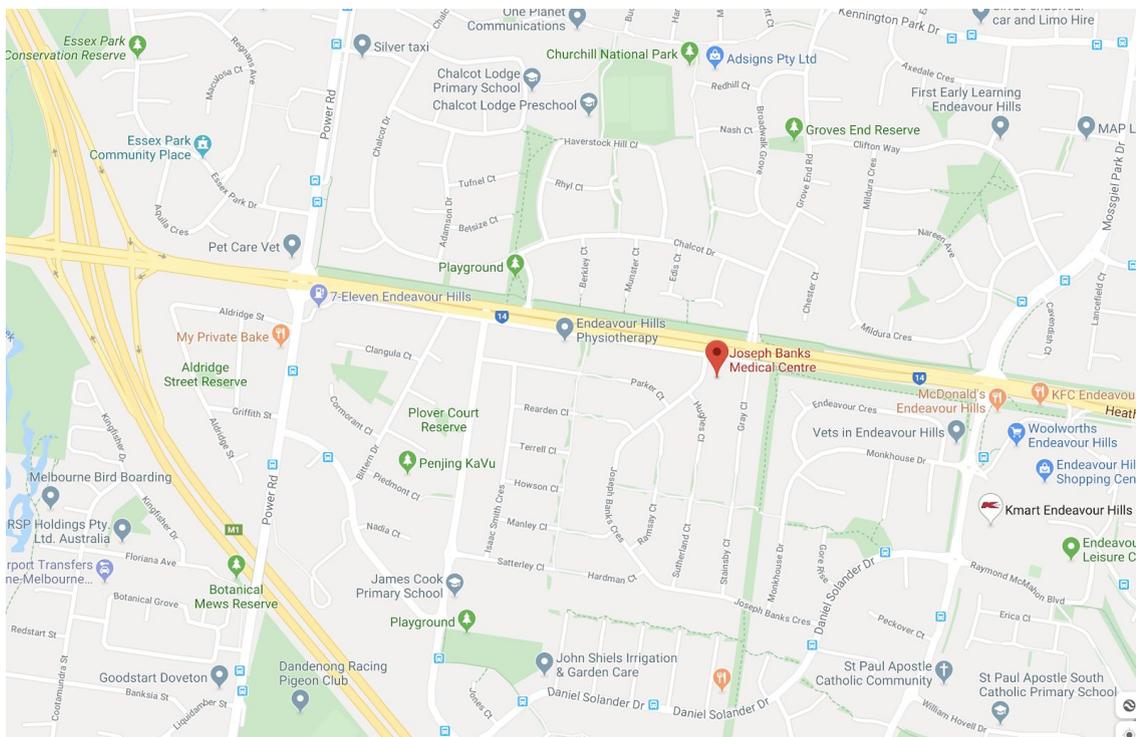

Joseph Banks Medical Centre is part of the Advocate Medical Group (AMG), a boutique group of quality general practices owned by Dr. Declan Green, a practicing GP with an MBA from a leading US business school. We believe the future of general practice is focussed on data-driven clinical outcomes and we aim to be on the forefront of changes and trends in general practice. Our small, responsive professional management team understands that doctors are our customers and we are mindful of our need to support your endeavours.

We have the resources and knowhow to guide you in developing the kind of practice you wish to run. Appreciating that general practitioners cannot depend on Medicare to sustain general practice, we have the resources to assist in helping you branch out into special interests.

Location

Joseph Banks is located in the south east of Melbourne within easy access to Monash Freeway. Typical driving times from the CBD is 35 minutes and Glen Waverley, 12 minutes. It is conveniently located outside of the suburb’s main business and retail area, meaning there is ample free on-site and off-site parking throughout the day.

Address: 3 Joseph Banks Crescent, Endeavour Hills 3802.

The Work Environment

The medical centre is purpose built with spacious consulting rooms. We have visiting psychologists and a pathology collection centre on site. Across the street, physiotherapy and radiology services are available.

Please visit our website, www.josephbanksmedicalcentre.com.au, where you can go for a virtual wander through the clinic (like Google Streetview).

Our patients

With JBMC being part of the local community since 1979, we have generations of families attending the medical centre. We also have new families that are continually moving into the area and choosing JBMC as their practice of choice. With generational turnover, our patients have a broad age range allowing our doctors to focus on children's health, family planning, pregnancy management and chronic disease management.

Being well known in the community, JBMC doctors offer general medical support to the psychiatrists at the St John of God Hospital on Heatherton Rd, Dandenong. This has been an optional source of income for doctors. Many of our doctors provide nursing home consultations.

Culture

JBMC is a private billing medical centre. As a service to our local community we provide bulk billing to patients that have current pension cards, health care cards and their dependents. As an independent doctor, you are welcome to charge your patients as you see fit.

Your colleagues

Dr Declan Green (Director, Principal and GP Registrar Supervisor)

Dr Roger Johnson (Diploma in Obstetrics and Gynaecology; Aviation Medicine accredited)

Dr Sam Guimmarra (Diploma in Obstetrics and Gynaecology; Speaks Italian)

Dr Graeme Downe (Diploma in Obstetrics and Gynaecology)

Dr Charles Hamilton (Grad. Diploma in Social Science (Drug Dependence))

Dr Ivan Ng (Speaks Cantonese)

Dr Krysia Debicki (Diploma in Obstetrics and Gynaecology; Speaks Polish)

Dr Melissa Monkivitch (Diploma in Obstetrics and Gynaecology)

Dr James Smith (GP registrar)

Expected Earnings

We are fully booked daily, and we believe demand is strong in the Endeavour Hills area and surrounds. Recently, we have had doctors reduce their hours as the wind down to retire. Therefore, a good doctor will have little difficulty in filling their books. Our full-time doctor's gross earning range is between 300-600K.

Our ideal Doctor

Our ideal doctor is looking for an opportunity to establish their practice and develop a long-term relationship with the local community. The doctor must be empathetic, customer focused and a team player. We are looking for a doctor who will help us grow the clinic while promoting the highest standard of patient care and ethics. As we work and treat people from all walks of life, it is vital that the doctor have excellent interpersonal skills, a good command of English and the ability to smile and laugh...often!

Dr. Declan Green MBBS FRACGP MBA (Kellogg)
